The Einhell TC-AV 1200 ash vacuum cleaner is the best way of getting fireplaces cleaned quickly and thoroughly. Conventional vacuum cleaners are not designed for the consistency of cold ash. The ash vacuum cleaner from Einhell is different: It was developed specially for fine particles of ash. The air which is suctioned in is conducted through the filter cartridge which traps the fine ash. Quick-fasteners enable the ash vacuum cleaner to be opened, emptied and closed again with a twist of the wrist. With a convenient carry-handle, the ash vacuum cleaner is effortless to use even for major cleaning jobs. And the TC-AV 1200 also comes with a metal-reinforced hose, an aluminium suction tube and a practical cable winder.
