RT-UD 1825

Radial Pull Saw

The radial pull saw RT-UD 1825 is equipped with a powerful motor for cutting and moulding of long and hard materials.

The multipurpose stopper and the precise guidance avoid cants and allow an exact repeat accuracy. Due to this practical pull appliance the saw is ideally suitable for trimming of panels. Special features of the RT-UD 1825 are the saw table made of anodised aluminium, a precise setting of cutting height, twin sawdust extraction and a magnifying glass to support reading of the scales.

Features

- Saw blade pull appliance
