BG-PL 31 Petrol Leaf Vacuum

Art.-No. 34.360.20

The petrol leaf blower vac with its „vacuum and shredder function and blowing functions“ provides cleanliness in the yard and around the house in a short period of time. Without any changing the various functions can be set just pushing the selector switch.

The petrol leaf blower vac takes in and shreds soft material of large size like leaves and grass down to 1/10 of its original size with the built-in shredder.

With the blowing function leaves sprayed out on wide grounds can be blown quickly on to one pile. Even the dirt in slits and corner can be cleaned properly.

The carrying belt and the additional handle allow a fatigue-less work. The large dimensions of the suction pipe and the collection bag with pre-separator enable safe working.
