

Universal Mitre Saw UKS 355

Art.-No.: **45.031.10**

Bar code: **4006825455052**

Sales unit: **1 pc**

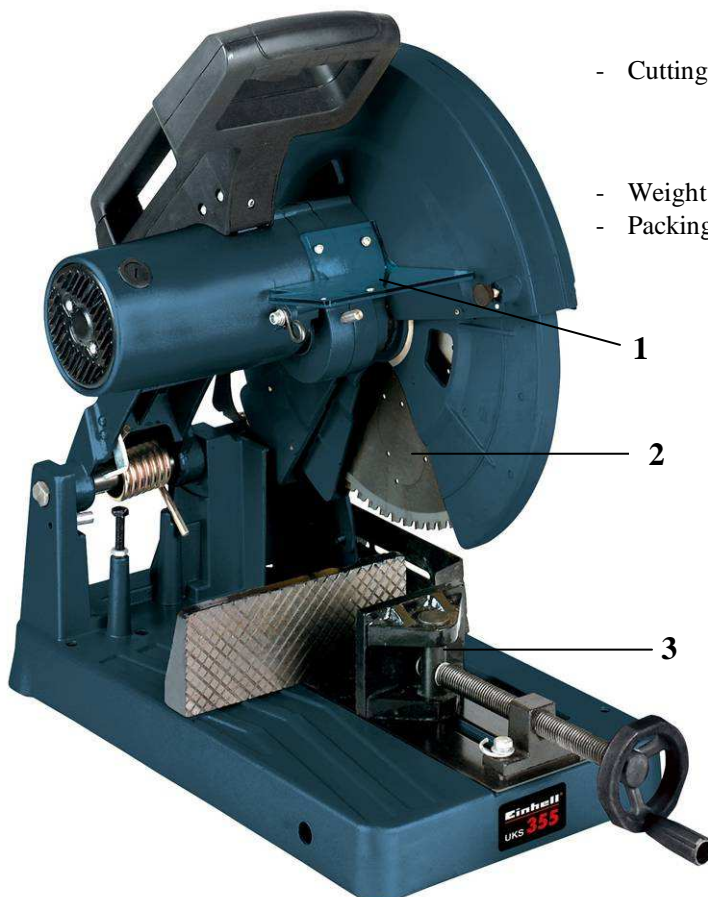

The UKS 355 can be used for fast, tidy and precise separation of iron, aluminium, brass or wood. Due to the carbide tipped saw blade cooling or greasing is not necessary. Furthermore there are scarcely no sparking formation because of the slow idle speed. Due to the spindle lock an easy change of cutting discs is guaranteed. The saw is equipped with a vice, tiltable from 0° to 45° for safe clamping of the work pieces. The long-life motor offers a high torque at a low speed.
