

Reliable dehumidification for a healthy room climate!

**Einhell**®

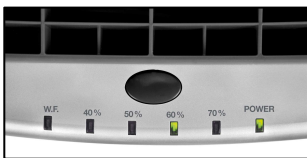

**NEW GENERATION**

With the dehumidifier NLE 20 E you can prevent damp walls, moldy smells, the growth of fungus or mold and the formation of condensation water caused by too much humidity in living areas, storage rooms and basements, etc.

An integrated fan conveys the humid air to an evaporator which cools down the air. Excess humidity is transformed into condensate and collected in the condensate collector. The dehumidified air is blown out again at a slightly higher temperature.

The hose connection for continuous condensate discharge enables the continuous operation of the dehumidifier.

## NLE 20 E Dehumidifier

### Logistic Information:

**Type:** NLE 20 E  
**Art. No.** 23.690.40  
**Ident No.:** 01027  
**Bar code** 4006825 533330  
**Packaging:** 390 x 285 x 590 mm

**Sales unit:** 1 pc  
**20`:`** 480 pcs  
**40`:`** 740 pcs  
**40``HC:** 972 pcs  
**Weight:** 12.66 kgs (gross)

## NEW GENERATION

Folding carry-handle

Washable dust filter

Hose connection for continuous condensate discharge

Air outlet grill

ON/OFF switch with humidity display

Condensate collector with inspection window and float to prevent overflow

Rollers for easy transport

### Features:

- ON/OFF switch with humidity setting (40% - 70% RH, continuous operation)
- Operating status indicator
- Room humidity setting indicator
- "Condensate collector full" indicator
- Air outlet grill
- Condensate collector with inspection window and float to prevent overflow
- Rollers for easy transport
- Folding carry-handle
- Washable dust filter
- Hose connection for continuous condensate discharge

### Technical Data:

- Operating voltage: 230 V ~ 50 Hz
- Power consumption: 400 watts
- Max. room size: 50 m<sup>3</sup>
- Temperature range: +8°C - +32°C
- Max. air circulation: 180 m<sup>3</sup>/h
- Dehumidifying capacity: 19 l/day at 30°C and 80% humidity  
11.4 l/day at 27°C and 60% humidity
- Condensate collector capacity, approx.: 5.3 l
- Coolant: R134a / 170 g
