

Rain Barrel Pump N-TMP-R 400

Art.-No.: 41.703.02

Bar code: 4006825544398

Sales unit: 4 pcs

The rain barrel pump is particularly suitable for the consumption of water from the rain barrel. Due to the bent pressure pipe the pump can be hung up into the rain collecting tank.

A hose for the irrigation with a garden shower can be attached by the plug-in connection at the stop valve. By connection of the removal hose other water tanks, e.g. watering cans, can be filled easily.

By using of an appropriate pressure hose the pump can also be used as a submersible pump for evacuating containers, tanks etc.

Features:

- Handle (1)
- Mains cable 10 m (2)
- Pressure connection ¾" male thread (3)
- Suction cage with integrated filter (4)
- Float switch (5)
- Pressure hose (approx. 1 m) (6)
- Distributor with stop valve (7)
- Removal hose (8)

Technical data:

- | | |
|---------------------------|--------------------|
| - Mains: | 230 V ~ 50 Hz |
| - Power: | 400 W |
| - Delivery capacity max.: | 4,200 l/h |
| - Delivery height max.: | 11 m |
| - Immersion depth: | 5 m |
| - Water temperature: | up to 35°C |
| - Foreign particle size: | Ø 3 mm |
| - Mains cable: | 10 m H05RN-F |
| - ON function: | approx. 50 cm |
| - OFF function: | approx. 5 cm |
| - Hose connection: | ¾" male thread |
| - Weight: | 4.8 kg |
| - Packing dimensions: | 330 x 230 x 170 mm |
