

Einhell

ACCESSORY

Submersible Pump Accessory

Schnellverbinder

Item No.: 4173764

Ident No.: 21013

Bar Code: 4006825673166

The Original Einhell Quick Connector is a useful accessory for Einhell submersible pumps. Thanks to its 47.8 mm (1 1/2") internally threaded connector, it is especially suitable for all mains-powered Einhell pumps for clean and waste water. The Quick Connector is simply installed on the pump outlet. The hose can then be easily connected and disconnected via a click system. The connecting piece can be rotated through 360°. This ensures the submersible pump does not fall over in the water when the hose is moved or twisted. The Quick Connector is suitable for connection to pumps with topside outlets, as well as those with the lateral hose connection at a 90° angle.

Features & Benefits

- Original Einhell quick connector for submersible pumps
- Suitable for cable-connected dirty water and clear water pumps
- Quick Connector: Hose connection by click system
- Suitable for side and top pump connection
- Also suitable for 90° connection
- Rotatable connection piece for safe standing of the pump

Technical Data

- Connections 47,8 mm (1 1/2") IG/AG
