WH 2000 I Wall Heating Unit

Art.-No. 23.385.03

The wall heating unit WH 2000 I can be regulated by a twin-level heater (high-quality non-glowing heat element, so-called PTC-Heater), electronic thermostat, timer and ioniser. An integrated noiseless roller fan and the connectable "Swing"-function of the air discharge lamellas, which turn upwards and downwards when electrically operated, distribute the warmth optimally in the room. The negative ions generated by the Ionisator settle to injurious, positively loaded particle and neutralise them, as they make them heavier and voluminous. The injurious particle do not float any more in the air which becomes clearly pure. The WH 2000 I is suitable for all dry rooms by a assembling height of minimum 1.8 m.

Features

- **Infra-red remote control (1)**
- **Air discharge lamellas automatically turnable (2)**
- Switch ON/OFF (3)
- **3-level switch for fan and heating (1,200 / 2,000 watts) (4)**
- **Electronic thermostat (15-36°C) (5)**
- „Swing“-switch (6)
- **Timer adjustable from 1 h to 8 h (7)**
- Ioniser Switch on-off (8)
- LED-Display (9)
- Switch-off-delay (fan switches off only after cooling down)
- Overheating protection

Technical data

- | | |
|------------------------|-------------------------------------|
| ■ Mains: | 220 - 240 V ~ 50 Hz |
| ■ Heating Power: | 2,000 Watt |
| ■ Negative Ionen: | $\geq 3 \times 10^6 \text{ n/cm}^3$ |
| ■ Production category: | IPX0 |
| ■ Product weight: | 3.4 kg |
| ■ Unit dimensions: | 580 x 158 x 250 mm |

Logistic data

- | | |
|-----------------------|--------------------|
| ■ Net weight: | 3.5 kg |
| ■ Gross weight: | 4.0 kg |
| ■ Packing dimensions: | 584 x 161 x 254 mm |
| ■ Bar code: | 4006825 583199 |
| ■ Sales Unit: | 2 pcs |
