

Fountain Pump LE-TP 1750 Niro Set

incl. bell shaped fountain and foaming head spout sales unit: 8 pcs

Art.-No.: 41.724.44

bar code: 4006825508741

This powerful submersible pond pump assists you in obtaining a good water quality and cares for the right amount of oxygen in the water. It is an eye-catching device in your garden pond or artificial brooklets. The pump is designed for permanent use under water. The pump is powered by an oil-less motor with the stator completely sealed-in and water-cooled permanent magnet rotor. The housing is made of impact resistant stainless steel.

Features:

- Jet fountain head (1)
- Flow control for fountain head (2)
- Carrying handle (3)
- Suction filter with BIOCELL-filter inlet (4)
- Flow control for waterspout (5)
- Connector for waterspout (6)
- 10 m mains cable with earth plug (not illustrated)

Standard accessory:

- 1 Bell shaped fountain head (7)
- 1 Foaming head spout (8)
