The Einhell TC-SM 2131/2 Dual drag, crosscut and mitre saw is ideally equipped for a wide range of jobs. The high-grade carbide saw blade also cuts through wide workpieces thanks to its smooth and stable drag function. For exact angular cuts the turntable has a precise angle adjustment facility with locking positions for the most common angles. Also, the saw head can be tilted to the left and right for mitre cuts. All the angle scales are easy to read. The mains-powered laser is an enormous help when working and the dust funnel behind the saw blade removes the sawdust very effectively.
