Home Water Works

Art.-No. 41.731.75

The new ECO-Power water works unit GE-WW 5537 E pumps water from wells and cisterns automatically with stable water pressure. Toilets, washing machines and garden watering are just a few of its numerous applications. Caused by modern and efficient technology the relationship between energy expenditure and power has been improved. Furthermore the water works unit is equipped with a prefilter, which prevents that dirt arrives into the pump inside. The pump is powered by an asynchronous motor with thermal protection and is also famous for its long life expectancy.
