## CLASSIC

Cordless Angle Grinder

**TC-AG 18/115 Li-Solo**

**Item No.: 4431130**

Ident No.: 21034

Bar Code: 4006825628746

The Einhell cordless angle grinder TC-AG 18 Li – Solo for sanding/cutting/polishing is the lightest angle grinder of its class. For safety there is a softstart function & restart safeguard. The overload cut-out, robust alu gear housing & modified air guidance contribute to a longer service life. For comfortable operation the motor and gearing are separated, resulting in very smooth operation; the tool is of slimline design with ergonomic soft grip surfaces. The handle can be fitted in three positions. It is also a member of the Power X-Change family: the same rechargeable battery for all PXC devices. For optimum results a 2.5 Ah battery or higher is recommended. The battery, charger & cutting disc are available separately.

## Features & Benefits

- Member of the Power X-Change family
- Lightest angle grinder of its class
- Softstart function and restart safeguard to make it safer to use
- Overload cut-out for a long service life
- Modified air guidance for better cooling and longer service life
- Very smooth operation thanks to separation of motor and gearing
- Robust aluminium gear housing
- Slimline design with ergonomic softgrip
- Additional handle can be fitted flexibly in 3 positions
- Recommendation for optimum results: 2.5 Ah battery & higher
- Supplied without battery and charger (available separately)
- Supplied without cutting disk

## Battery-Running-Times

| One Battery for All | <br>cutting <sup>1</sup><br>(pieces) |
|---------------------|-----------------------------------------------------------------------------------------------------------------------|
| 1.5 Ah              | 15                                                                                                                    |
| 2.0 Ah              | 20                                                                                                                    |
| 2.5 Ah              | 25                                                                                                                    |
| 3.0 Ah              | 30                                                                                                                    |
| 4.0 Ah              | 40                                                                                                                    |
| 5.2 Ah              | 60                                                                                                                    |
| 6.0 Ah              | 70                                                                                                                    |
| 8.0 Ah              | 80                                                                                                                    |

For best performance select a battery with at least 2.5 Ah

Test setup:

1) metal - round steel Ø 12 mm
