RT-VE 550 A Suction Device

Art.-No. 43.041.50

The powerful RT-VE 550 suction device is perfect for do-it-yourselfers and hobby workers and helps to keep your working space splinter and dust free. The suction device has a quick-release fastener for quick change of the collection bag and an undercarriage for easy transport. It can be connected to all woodworking machines with a 100 mm or 36 mm suction appliance. Additionally the suction device is equipped with an automatic socket-outlet for electric tools. When the connected machine is switched on, the automatic start function also starts the vacuum extraction system. The integrated automatic run-on function prevents chips and dust from remaining in the hose after the machine is switched off.
