The Ozito OCPS-036 Cordless Pruner is great for pruning a wide variety of shrubs, fruit trees, branches, roses and other flowering plants around the garden. Proper pruning encourages plants to thrive and is key to maintaining, healthy flowering plants and fruit trees. It is Ideal for soft (fresh) green wood, woody (dry) stems, twigs and branches up to 12mm.

Ozito's cordless pruner provides a clean, precise cut to allow your plant to heal while eliminating the stress and strain associated with squeezing conventional manual pruners.

Cutting is as simple as squeezing the trigger, and when fully charged the cordless pruner provides up to 450 cuts on a single charge on 8mm hardwood. An ergonomic Sure Grip handle provides a secure, comfortable grip, a built-in safety switch prevents accidental cuts, and dual onboard LEDs shines little light on the trimming task for enhanced visibility indoors.
