Table-, disc- and belt sander

Art.-No. 44.192.53

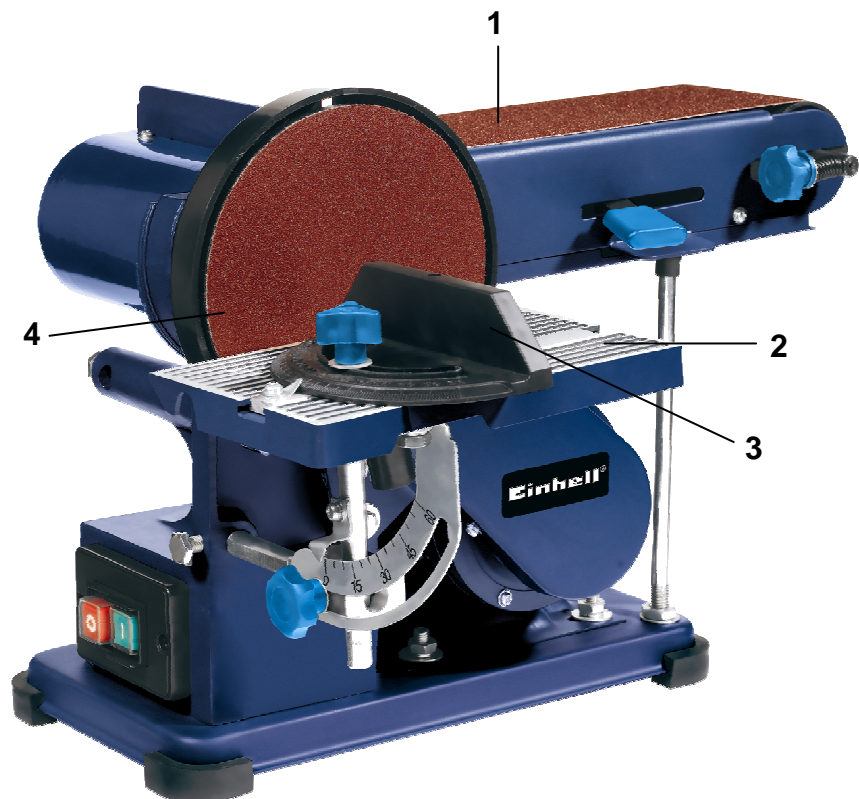

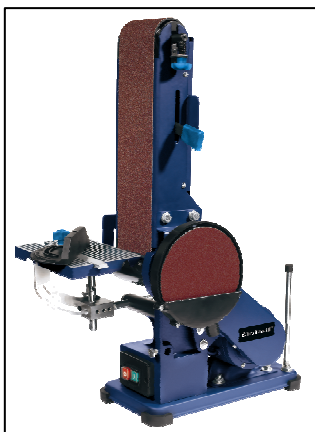

The belt sander device can be used in horizontal as well as in vertical position and therefore can be used for various kinds of sanding jobs and sizes of work pieces. The table for the disc sander can be tilted continuously from 0-45°. Using the likewise steplessly tiltable guide rail thus various kinds of angles can be sanded. For the disc sander sanding discs with velcro fastening can be used, so changing of discs can be done fast and without problems. The unit is driven by a silent V-belt. A dust extraction adaptor is attached at the belt sander device as well as at the disc sander.
