

HES 105 OG Flux-Cored Welding Machine

Art.-No. 15.752.21

With the flux-cored welding machine BT-FW 100 you can weld as with a gas welding machine, but the advantage is in the mobility. Inside the cored wire a powder is located, which changes to inert gas during welding. The electric arc is stabilized and the weld seam is protected. Thus also the entrainment of a gas bottle isn't applicable and the unit is therefore ideally suitable in mobile application.

Features

- Carrying belt (1)
- Overheating display (2)
- Continuous wire feed (3)
- Earth terminal (4)
- Burner (5)
- Welding shield (6)
- Chipping hammer (7)

Technical Data

- | | |
|-------------------------------------|--------------------|
| ■ Mains: | 230 V ~ 50 Hz |
| ■ Welding current I ₂ : | 45/90 A |
| ■ Welding current regulation: | 2-steps |
| ■ Off-load voltage U ₀ : | 31 V |
| ■ Welding wire drum max.: | 0.4 kg |
| ■ Welding wire-Ø: | 0.9 mm |
| ■ Wire feed: | stepless |
| ■ Hose length: | 2.2 m |
| ■ Net weight: | 13.9 kg |
| ■ Gross weight: | 15.3 kg |
| ■ Packing dimensions: | 515 x 230 x 340 mm |
| ■ Bar code: | 4006825 557343 |
| ■ Sales unit: | 1 pc |
