

Aluminium Green House Concept II/4 mm

Art.-No.: 36.513.40

Bar code: 4006825564297

Sales unit: 1 pc

Due to the fact that the green house (2-panels – single door) was statical proper calculated, anodized aluminium profiles, you don't need any crosswise installing wind bonds. The individual parts which must be installed are limited to a minimum. A patent-registered connecting system, fixed connection points, the pre-assembled window and the pre-assembled door reduce the assembling time significant. Heat insulating, full-page from aluminium profiles bordered 4 mm sheets made of polycarbonate offers an optimal climate in the green house.

It is recommended to embody the green house with one aluminium stand and 4 pcs of ground anchors (are available as accessory) in the ground. Alternatively it can be installed also onto a wall or a concrete stand. The national customary building regulation is to be considered.

The greenhouse is snow load tested with 50 kg/m² and wind load tested with 25 kg/m².

Features:

- High strength, beamless anodized closed aluminium profiles for an optimal reinforcement of geometry
- Patent-registered connecting system
- High quality ridge and corner completion made of powder-coated aluminium – die cast
- Extra high, closed floor sweep
- hexagon socket screw made of stainless steel, rustfree
- Polycarbonate sheets 4 mm, impact and shock resistant, resistant to ball throw, UV-resistant, temperature resisting -25°C to +60°C
- Large single wing door with metal hinges, metal pushers and clip-supported twice bolting device
- 2 pcs at the front side arranged, double sliding windows which can be opened stepless and vertical
- 4 pcs drain gutters with hose preparation

Technical data:

- Dimensions L x B: 153.3 x 234.4 cm
- Eaves height: 151.5 cm
- Ridge height: 218 cm
- Door height (clearance): 178.3 cm
- Door breadth (inner width): 73.8 cm
- Floor space approx.: 3.59 m²
- Room volume: 6.0 m³
- Panels: 2
- Thickness sheets: 4 mm
- Net weight: 41.5 kg
- Gross weight: 63 kg
