

Battery charger YPL-SM 10

Art.-No.: **10.508.56**

Bar code: **4006825529968**

Sales unit: **6 pcs**

Robust and automatic 12 V electronic battery charger. It is equipped with ammeter for control of the charging progress showing the respective charging amperage. The strong pole clips warrant an optimal connection to the pole tips of the battery. With the strap handle it can be comfortably transported.

The electronic charging control limits the charging voltage at 14.1 V (WU-curve). Overloading the connected battery is therefore not possible and the charging procedure does not have to be supervised. The battery charger is ideal for maintenance-free batteries and also for topping up seldom used batteries.

Features:

- Protective insulated structure
- Loading electronics
- Sheet steel housing
- Thermal protection
- Polarity protection
- Short-circuit protection
- Mains cable with european plug
- Handle (1)
- Inserted ammeter (2)
- Loadline with strong pole pliers (3)

Technical data:

- Mains: 230 V ~ 50 Hz
- Charging voltage: 12 V
- Charging current: 7.1 A arith. / 10 A eff.
- Suitable for lead batteries: min. 5 Ah - max. 200 Ah
- Weight: 3.1 kg
- Packing dimensions: 215 x 190 x 125 mm
