The Einhell domestic water system GE-WW 1145 has an on/off switch, as well as water level, contamination and suction indicators. A large water-fill port ensures it is easy to put into operation. The domestic water system can be emptied completely by means of the water drain plug. It is fully protected by a thermal switch and a pre-filter with non-return valve. The domestic water system features high-quality mechanical seals, a second pressure connection in addition to the durable suction and pressure connections of high-quality metal construction, as well as a generously sized 20-litre tank. The set includes a 1" (33.3 mm, external thread) adapter suitable for 1" suction hoses.
