

This small suction device produces a high depression and the exhaust air will be cleaned by a pleated filter. For stationary tools the 100 mm suction hose is ideally suitable. By using the adapters also smaller hoses can be connected.

Features

- Ø 100 mm tube system (1)
- 4 reduction adapters (2)
- 50 l metal vessel (3)
- Carrying handle (4)
- Fine filter (pleated filter)

Standard accessories

- 2 m suction hose Ø 100 mm
- Pleated filter
- Paper addition filters (5 pcs) (5)
