

The rugged and powerful profi dirt water pump for moving waste water, it takes foreign particles up to Ø 35 mm in size. In addition to its typical use in excavation pits, this pump is particularly suitable for emptying garden ponds and swimming pools. Thanks to its continuously adjustable float switch the dirt water pump is an indispensable tool during floods and in case of burst pipes. One of the advantages of this pump is its carrying handle with integrated cable reel for proper storage and transport.

Features

- Carrying handle with integrated cable reel
- Continuously adjustable float switch
- Universal connection 1 ½" male thread
- Impurities up to 35 mm are handled
- Housing made of stainless steel
