RT-SD 4,8+

Cordless Screwdriver

The RT-SD 4,8+ is the handy solution for every do-it-yourselfer. Its adjustable gear head with high-grade metal gear makes it a clear winner of the competition. Thanks to its rotating handle it even reaches hard-to-get-to areas without any problems.

The ergonomic handle with soft grip inlays offers a perfect hold and the integrated LED light cares for high visibility. Inimitable is also the storage case. It contains the bits, is at the same time a charger and is equipped with a integrated cable store.

By the use of nickel-metal hydride batteries the environment is saved because we don't use heavy metals.

Features

- Adjustable gear head
- Rotating handle
- High grade metal gear box
- Charger and case in one part
- Charger with integrated cable store
- Battery capacity indicator
- LED light
- Soft grip for better and convenient handling
- 12 parts chrome-vanadium titanium-coated bit set
- 1 magnetic bit holder
