

600W PLANER

XPL-600A

EH-Art. No: 30.004.33
Ident No: 11018
Barcode: 9319510023944
Bunnings Item No: 0098553

This 600W planer is ideal for light DIY planing jobs such as smoothing down rough surfaces, straightening edges, making rebate cuts and resizing timber pieces. The included rebate guide and parallel guide help you make precise cuts in your projects. With 2 durable, reversible HSS blades fitted, you're ready to get started on your next woodworking project right out of the box.

The soft grip handle increases user comfort while you work, whilst the safety lock-off button prevents accidental starting before you're ready. A chamfering groove in the base plate allows you to finish off edges on workpieces once you've squared them up.
