The Einhell Power Generator TC-PG 8000 is driven by a high-performance 4-stroke engine. A wide range of devices can be connected to the two 230 V sockets or the 400 V outlet and supplied with up to 7500 W continuous output or 8000 W peak output. The AVR function ensures a stable output voltage, while the electric start with starter battery (included) allows easy operation. The 25-litre petrol tank with level indicator enables continuous operation of up to 10,1 hours at 2/3 load. An overload switch and a low-oil cut-out ensure safe and durable operation. Two wheels and a folding handle make the generator mobile.
