## NEW GENERATION

This heater is indispensable during the transition period and on extremely cold days. Heaters can generally be used in all dry and closed rooms. In order to achieve the desired temperature at all room areas quickly, an integrated fan and an additional oscillation function provided, ensure an optimal distribution of warm air in the room. The power-on time can be set with a timer function. All functions can be set directly on the unit itself or by the supplied Infrared remote control.

## NHL 2000 Heating Fan
