

Snow support frame SSTR 1

Art.-No.: 37.101.10

Bar code: 4006825514261

Sales unit: 1 pc

At places, where the snow load exceeds the approved roof load of 0,75 kN/m² (this is equivalent to 45 cm powder snow) of the 3m wide Einhell metal houses, this support frame, made of galvanized sheet steel profiles, stabilizes the roof of the metal houses and prevents damage.

This requires a solid anchoring of the metal house on the ground and a screw connection of the snow support frame with the metal house and the ground. The assembly material is included in delivery.

Important information:

According to DIN 1055 the roof has to be cleared from snow permanently or the snow load has to be supported by a suitable support frame (SSTR1).

The snow support frame is suitable for the Einhell metal houses Type M 300218, M300292; M300366 and the metal garage M300600. For the metal garage 2 support frames are necessary.

Included in delivery:

- 1 pc. gable connecting plate (1)
- 2 pcs. sheet steel profiles L = 1704 mm (2)
- 2 pcs. side connection plates (3)
- 2 pcs. sheet steel profiles L = 1482 mm (4)
- 1 pc. ground angle (5)
- 80 pcs. self-drilling screws 16 mm
- 26 pcs. self-drilling screws 45 mm
- 4 pcs. Heavy duty anchors

Technical Data:

- Galvanized sheet steel profiles: 80 x 40 x 0.8 mm
- Brithd: 295 cm
- Height: 204.5 cm
