## GE-WW 9041 E Home Water Works

**Art.-No. 41.734.44**

The new ECO-Power water works unit GE-WW 9041 E pumps water from wells and cisterns automatically with stable water pressure. Toilets, washing machines and garden watering are just a few of its numerous applications. The boiler is made of stainless steel which affects a high durability and no colouration of the water by rust.

Caused by modern and efficient technology the relationship between energy expenditure and power has been improved. Furthermore the water works unit is equipped with a prefilter, which prevents that dirt arrives into the pump inside. The pump is powered by an asynchronous motor with thermal protection and is also famous for its long life expectancy.
