NKH 1800 D Ceramic Heater

Art.-No. 23.388.16

This heating fan is indispensable during the transition period and on extremely cold days. Heating fans are very compact and can generally be used individually all around home because of its heating element construction. In order to achieve quickly the desired temperature at all room areas, an integrated fan and an additional oscillation function ensure an optimal distribution of warm air in the room. The NKH 1800 D can also be used as fan in summer.

The turn-off time, the desired room temperature and the heating power can be set electronically by key press and can be read off on the LCD display.

Features

- PTC-ceramic heating elements
- ON / OFF switch (1)
- Background lighted display (2)
- Connectable 60° oscillation function (3)
- Turn-off time pre-selectable (1 min - 18 h) (4)
- Powerful axial fan
- Electronically adjustable room thermostat (5 - 35° C)
- 2 settings (1,000 W / 1,800 W) and fan operation
- Safety disconnection during tilting
- Safety disconnection during overheating
- Integrated handle

Technical Data

- Mains: 230 V ~ 50 Hz
- Heating Power: 1,800 Watt
- Protection category: IP X0
- Unit dimensions: approx. 175 x 135 x 280 mm
- Product weight: 1.7 kg

Logistic Data

- Net weight: 1.7 kg
- Gross weight: 2.2 kg
- Packing dimensions: 187 x 157 x 295 mm
- Bar code: 4006825 577075
- Sales Unit: 4 pcs
